THE PROPERTY COMPRISES A SUBSTANTIAL DETACHED MANUFACTURING / WAREHOUSE FACILITY PURPOSE-BUILT IN THE EARLY 2000S AND OFFERING HIGHLY VERSATILE ACCOMMODATION SUITABLE FOR A RANGE OF INDUSTRIAL, LOGISTICS AND ADVANCED MANUFACTURING USES.

THE PROPERTY

Constructed around two principal warehouse / production bays, the building offers 7m and 14.5m internal eaves heights, with steel portal frame construction, profile clad elevations and translucent roof lights providing strong natural light to the working areas.

The building benefits from extensive loading capability, including 3 dock level loading doors and 15 level access loading doors, with servicing available to all elevations beneath substantial loading canopies. A key operational advantage is the full 360-degree circulation route, allowing excellent HGV movement and yard efficiency.

Two-storey integral offices provide a mix of open plan and meeting accommodation, together with canteen, locker and welfare areas, all accessed via a secure front entrance.

Externally, the site extends to approximately 19.76 acres, with a secure gatehouse entrance and generous dedicated parking.

There is a significant area of expansion land to the east, suitable for building extension, additional yard space or open storage, subject to planning. The park itself benefits from low site cover.
