

# PROJECT PRECISION

## BUSINESS OVERVIEW

Gordon Brothers has an excellent opportunity to acquire the business and assets of Project Precision, a pioneering UK-based medical technology firm specialising in the design and manufacture of medical devices and implants.

Utilised across orthopaedic and craniomaxillofacial surgeries, the company's solutions combine advanced digital surgical planning, bespoke implant design and additive manufacturing to deliver personalised medical devices tailored to individual patient anatomy.

The solutions, which are actively used across international publicly funded healthcare systems and have been validated by clinical research institutes, are designed to improve surgical accuracy, reduce theatre time and enhance patient outcomes.

This opportunity is likely to be of interest to global medtech groups, orthopaedic device manufacturers, digital surgery platforms or additive manufacturing specialists seeking to capitalise upon the structural shift towards personalised medicine, digital surgery and on-demand manufacturing.

## OPPORTUNITY HIGHLIGHTS

- **Personalised Medicine Platform:** Proven capability to deliver patient-specific solutions at commercial scale.
- **Healthcare System Validation:** Adoption within publicly funded healthcare settings and collaboration with leading clinical and academic institutions provides strong third-party validation.
- **Regulatory & Clinical Readiness:** Developed in alignment with stringent healthcare standards, providing a significantly accelerated route to clinical adoption.

## FEATURED ASSETS

- **Granted Patent Portfolio**
- **Proprietary Software Platforms** relating to design, surgical planning & case management
- **Clinical Know-How & Technical Documentation**
- **Customer Contracts**
- **Registered Trade Marks** and other brand-related assets
- **Manufacturing Equipment**
