

TRUSTIFY LIMITED (IN LIQUIDATION)

Assets For Sale

CYBERSECURITY AND DIGITAL TRUST BUSINESS POSITIONED AT THE INTERSECTION OF CYBER RESILIENCE, CRYPTOGRAPHY, AND ENTERPRISE SECURITY ASSURANCE.

OVERVIEW

On behalf of the Joint Liquidators (Stuart Preston and Julie Tait of Grant Thornton), Gordon Brothers presents an opportunity to acquire the intellectual property assets of Trustify Limited (in Liquidation), developers of a digital trust and cybersecurity platform focused on certificate lifecycle management, post-quantum cryptography ("PQC"), AI security assurance and cyber resilience solutions.

The business evolved from its origins as a cybersecurity consultancy firm into a SaaS-led software provider, centred around three complementary offerings: TrustiCerts, a certificate lifecycle management platform; TrustiMail, an email trust and authentication solution; and Trustify Experts, a cybersecurity advisory and assurance service encompassing AI security audits, PQC readiness assessments and certificate migration programmes. Together, these products created an integrated digital-trust ecosystem serving organisations facing increasing security, compliance and cryptographic management requirements.

Underpinned by a robust IP portfolio, Trustify provided services to customers across a range of sectors including finance, healthcare and energy, together with local councils and governments, generating seven figure ARR.

OPPORTUNITY HIGHLIGHTS

- **Proprietary digital trust technology platform**
 - Cybersecurity solution with a track record of underpinning recurring subscription revenues.
- **Positioned within high-growth cybersecurity sectors**
 - Placed to benefit from shortening certificate lifecycles and emerging PQC migration requirements.
- **Strategic bolt on or platform acquisition**
 - Enabling acquirers to enhance existing cybersecurity offerings and cross-sell into established customer bases.

ASSETS AVAILABLE

- **Source Code:** underpinning multiple solutions including a certificate lifecycle management platform and a cloud powered email security platform.
- **Know-how:** including proprietary methodologies and workflows.
- **Registered Trade Mark Portfolio**
- **Organisational Knowledge**
- **Brand-related Assets**

Access to additional information can be provided upon receipt of a signed NDA. All offers are to be supported by proof of funding.

OFFER DEADLINE
