

PROJECT ODYSSEY

Assets For Sale

ENTERPRISE AI PRIORITISATION AND DEPLOYMENT SOFTWARE PLATFORM

OVERVIEW

Project Odyssey is an opportunity to acquire a UK-developed software platform operating within the rapidly growing enterprise AI market.

The business has developed proprietary technology designed to help organisations identify, prioritise and implement AI initiatives, addressing a key challenge faced by enterprises seeking to realise measurable value from AI adoption.

The platform has been utilised across multiple enterprise environments through established channel relationships and offers potential applications across a broad range of sectors.

OPPORTUNITY HIGHLIGHTS

- Proprietary enterprise AI software platform
- Established technology with applications across multiple industries
- Demonstrated enterprise adoption through strategic channel relationships
- Scalable software-led business model
- Experienced management and technical leadership team
- Strategic acquisition opportunity for software, consulting and technology buyers
- Platform addressing AI adoption, prioritisation and deployment challenges within organisations

ASSETS AVAILABLE

- Proprietary software platform and associated source code
- AI assessment and deployment technologies
- Domain names and digital assets
- Proprietary methodologies and technical know-how
- Brand assets and associated goodwill
- Technical documentation and development materials
- Strategic partnership and commercial materials

OFFER DEADLINE

Wednesday 28th October 2026 at 5PM (BST).
